

Missile Alert

*Drove an eighteen wheeler
right through a squealer
revved up a precious harlot
until the throttle spun a bottle and the rocket left the docket
for a black hole in the deep and tainted universe.*

Missile alert

There's a missile alert
A cap n' popped a viagra
came to the party dressed in pajamas, surfing Niagara

Can't catch a break
Can't break a star
Will never figure out just what you are
Won't skip a beat
Won't ever miss a seat
Shut the hell up and get back in the car.

There's a Missile alert
beware of the subvert
taxing your taxi to the highway
maxing up the skyway

Can't catch a break
Can't break a star
Will never figure out just what you are
Won't skip a beat
Won't ever miss a seat
Shut the hell up and get back in the car.

(Bridge)

Can't catch a break
Can't break a star
Will never figure out just what you are
Vicious yet delicious,
what more do you want?
Vindictive and suspicious
a real piece to flaunt
